What is the ionicSpa?

The ionicSpa is a state of the art, all digital, ionic footbath; it an effective, safe, non-invasive, and painless way to help your body detoxify naturally. Recall the way your body felt when you stood next to a waterfall, or walked along a beach, or through a deep forest. You breathed deeper into your lungs, and your mind cleared; you even felt lighter and at peace with the universe. These invigorating reactions were caused by the ionization of trillions of water molecules entering your body through your skin and lungs. The ionicSpa creates the same environment - even more powerfully!

Do I need to detoxify?

Because of poor diet, air pollution, water pollution and high stress, we tend to accumulate and store excessive quantities of toxins and acidic waste products that build up in the fat cells, joints, muscles and even organs such as the liver & kidney. According to Dr. Theodore Baroody, author of *Alkalize or Die*, avoiding disease and maintaining vitality as we age, requires an alkaline environment throughout the body. Certain occupations are prone to toxicity and continued build up of these toxins may result in variety of symptoms from apparently unknown causes. For those aged, weak, and on long term medication, malfunction of their immune & detoxification system results in more accumulation of various wastes within the cells and tissues. These toxins disrupt normal body functions creating an environment for disease, allergies and immune system problems.

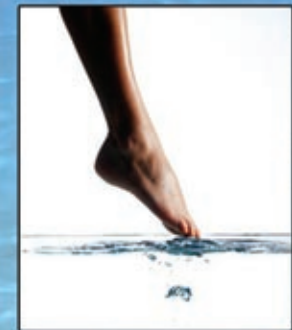

"When you take a closer look, all diseases have critical components of environmental toxins and nutritional deficiencies both of which are completely reversible"
Detocifyor Die - Sherry A. Roger, M.D.

How does it work?

A water molecule is composed of two hydrogens and one oxygen atom. When the molecule loses a hydrogen atom, the remaining OH molecule takes on a negative charge. As you walk along the beach your body absorbs trillions of these negatively charged ions. The ionicSpa's control head delivers an electrical current through an ionizer array to generate these same OH ions in the concentrated form that will cause a healing effect and alkalize the blood and tissue. In addition, the highly-concentrated ion field in the ionicSpa water is a conductive medium that will gradually attract toxic particles towards the feet! Essentially, the ionicSpa functions as a magnet that helps your body to detoxify by attracting toxins! Toxic particles exit the body through skin pores by osmosis to where they are neutralized and trapped in a charged bath of water! The ionicSpa is care for the immune system; it is revolutionary way to re-balance, re-energize & detoxify the body; treatment sessions re-stabilizes cells of the body so that normal physiological functions run at optimal levels, particularly the uptake of necessary nutrients & the elimination of unwanted waste products. These benefits dramatically help to restore the immune system to normal functioning by reducing its workload stress as well the workload stress on its supporting waste elimination organs such as the liver & kidneys. After an ionicSpa session, the body's own self detoxification, cleansing & healing process is kick started & activated!

Skin & Beauty Applications:

Acne, rashes, dark circles, yellow-green and blotched complexions often indicates a sluggish detoxification and imbalanced immune system. Several ionicSpa cleansing sessions, along with dietary modifications have been shown to substantially help reduce and even eliminate these conditions.
